

TEJ SINGH RAJPUROHIT

Healthcare Business Analyst | Healthcare Technology | AI Product Analyst

Ahmedabad, India | +91-9001430601 | Tsrajpurohit322@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Healthcare domain professional with a Master of Pharmacy in Pharmacology and experience in pharmaceutical Business Development and Regulatory Affairs. Transitioning into Business Analysis and Healthcare Technology with practical skills in requirements elicitation, stakeholder management, BRD/FRD, user stories, acceptance criteria, BPMN, Agile/Scrum, Jira, UAT, API concepts, SQL/MySQL, and Power BI. Developed healthcare technology portfolio case studies across hospital management, clinical trials, AI-enabled RCM, and healthcare analytics.

CORE SKILLS & COMPETENCIES

Business Analysis: Requirements Elicitation & Analysis • Stakeholder Management • BRD • FRD • Functional & Non-Functional Requirements • Gap Analysis • Root Cause Analysis • Impact Analysis • UAT

Agile & Product: Agile • Scrum • User Stories • Acceptance Criteria • Product Backlog • Backlog Refinement • Sprint Planning • Jira • Product Requirements

Process & UX: BPMN • UML • AS-IS / TO-BE Analysis • Process Mapping • Workflow Design • User Journey Mapping • Wireframing • Prototyping

Technical & Data: REST API Concepts • API Testing • Postman • SQL • MySQL • Power BI • Data Analysis • Data Visualization

Healthcare: Pharmaceuticals • Regulatory Affairs • Healthcare Workflows • Clinical Research • Pharmacovigilance • Healthcare Analytics • Healthcare AI

PROFESSIONAL EXPERIENCE

Assistant Manager – Business Development

July 2019 – September 2020

Espee Drugs & Finechem Co. — Ahmedabad, India

- Coordinated new pharmaceutical product development activities by identifying and resolving technical and documentation-related issues.
- Acted as a liaison between buyers and suppliers to understand requirements and coordinate appropriate solutions.
- Coordinated QA, QC, and regulatory requirements between internal and external stakeholders.
- Analyzed technical and documentation requirements and communicated relevant information between stakeholders.
- Supported resolution of cross-functional issues related to product development, quality, and regulatory requirements.

Junior Executive – Regulatory Affairs

November 2018 – June 2019

Lyka Labs Limited — Ankleshwar, Gujarat

- Prepared regulatory documentation for pharmaceutical manufacturing and export activities, including COPP, product permissions, and FDCA-related documentation.
- Reviewed regulatory requirements and coordinated required information and documentation for pharmaceutical products.
- Supported regulatory documentation activities for tablet and injectable pharmaceutical products.
- Collaborated with cross-functional teams to ensure documentation was complete, accurate, and aligned with statutory requirements.

HEALTHCARE TECHNOLOGY PORTFOLIO

Business Analysis portfolio case studies / simulations — not commercial employment projects.

Hospital Management System | Business Analysis Case Study

Analyzed hospital workflows and elicited functional requirements for patient registration, scheduling, appointments, and billing. Created stakeholder analysis, BRD/FRD, AS-IS/TO-BE models, user stories, acceptance criteria, Jira backlog items, and UAT scenarios.

Clinical Trial Management System | Business Analysis Case Study

Analyzed clinical trial workflows and stakeholder requirements covering trial setup, patient enrollment, site activities, documentation, and protocol compliance. Developed process models, requirements, user stories, acceptance criteria, and UAT scenarios.

AI Healthcare Revenue Cycle Management Platform | AI Product / BA Case Study

Analyzed healthcare RCM workflows and identified AI automation opportunities. Defined requirements and business rules for claim validation, document processing, denial management, and revenue analytics, supported by workflows, user stories, and acceptance criteria.

Healthcare Analytics Dashboard | Business Analysis / Product Case Study

Defined healthcare analytics and reporting requirements, including KPI definitions, dashboard requirements, user stories, acceptance criteria, and validation scenarios for operational decision-making

EDUCATION

Master of Pharmacy (M.Pharm) – Pharmacology

March 2014 – July 2015

Lachoo Memorial College of Science & Technology, Rajasthan University of Health Sciences, Jaipur

Bachelor's Degree – Pharmacy

September 2010 – July 2013

Rajasthan University of Health Sciences, Jaipur

TECHNICAL TOOLS & TECHNOLOGIES

Project & Collaboration: Jira • Confluence

API & Database: Postman • REST API Concepts • SQL • MySQL

Data & Visualization: Power BI • Excel

Diagramming & Prototyping: Figma • Whimsical • Draw.io
