

TEJ SINGH RAJPUROHIT

Healthcare Business Analyst | Healthcare Technology | AI Product Analyst

Ahmedabad, India | +91-9001430601 | Tsrajpurohit322@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Healthcare domain professional with a Master of Pharmacy in Pharmacology, backed by professional experience in pharmaceutical Business Development and Regulatory Affairs. Transitioning into Business Analysis and Healthcare Technology with strong practical capabilities in requirements elicitation, stakeholder management, BRD/FRD documentation, user stories, acceptance criteria, BPMN, and Agile/Scrum methodologies.

Demonstrated proficiency coordinating technical, quality, regulatory, and buyer-supplier requirements within fast-paced pharmaceutical environments. Built a portfolio of healthcare technology case studies spanning Hospital Management Systems, Clinical Trial Management, AI-driven Healthcare Revenue Cycle Management (RCM), and Healthcare Analytics. Eager to leverage domain expertise and technical acumen as a Healthcare Business Analyst, Business Systems Analyst, or Product Analyst.

CORE SKILLS & COMPETENCIES

Business Analysis: Requirements Elicitation & Analysis, Stakeholder Management, BRD, FRD, Functional/Non-Functional Requirements, Gap Analysis, Root Cause Analysis, Impact Analysis, UAT

Agile & Product Management: Agile, Scrum, User Stories, Acceptance Criteria, Product Backlog, Backlog Refinement, Sprint Planning, Jira, Product Requirements

Process Modeling & UX: BPMN, UML, AS-IS / TO-BE Analysis, Process Mapping, Workflow Design, User Journey Mapping, Wireframing, Prototyping

Technical & Data: REST API Concepts, API Testing, Postman, SQL, MySQL, Power BI, Data Analysis & Visualization

Tools & Software: Jira, Postman, MySQL, Power BI, Figma, Whimsical, Draw.io

Domain Expertise: Pharmaceuticals, Regulatory Affairs, Healthcare Workflows, Clinical Research, Pharmacovigilance, Healthcare Analytics, Healthcare AI

PROFESSIONAL EXPERIENCE

Assistant Manager – Business Development

July 2019 – September 2020

Espee Drugs & Finechem Co. — Ahmedabad, India

- Coordinated new pharmaceutical product development lifecycles by proactively identifying and resolving technical and documentation-related bottlenecks.
- Acted as a primary liaison between buyers and suppliers to interpret business requirements and coordinate compliant solutions.
- Facilitated cross-functional alignment by bridging QA, QC, and regulatory requirements between internal teams and external stakeholders.
- Analyzed complex technical and documentation requirements, translating them into clear communication across stakeholders.

- Supported rapid resolution of cross-functional issues related to product development, quality benchmarks, and regulatory compliance.

Key Skills: *Stakeholder Management, Requirements Analysis, Cross-functional Collaboration, Problem Solving, Technical Documentation, Product Development, Regulatory Affairs*

Junior Executive – Regulatory Affairs

November 2018 – June 2019

Lyka Labs Limited — Ankleshwar, Gujarat

- Prepared critical regulatory documentation for pharmaceutical manufacturing and export operations, including COPP, product permissions, and FDCA filings.
- Reviewed evolving regulatory guidelines and coordinated required information and documentation for diverse pharmaceutical portfolios.
- Supported regulatory documentation activities for tablet and injectable dosage lines.
- Collaborated with cross-functional teams to ensure documentation was complete, accurate, and aligned with statutory requirements.

Key Skills: *Regulatory Affairs, Regulatory Documentation, Requirements Analysis, Compliance, Stakeholder Coordination, Pharmaceutical Manufacturing*

HEALTHCARE TECHNOLOGY PORTFOLIO

Note: These are Business Analysis portfolio case studies and simulations demonstrating industry-standard methodologies, not commercial employment projects.

Hospital Management System

Business Analysis Case Study

Analyzed hospital operational workflows and elicited functional requirements for patient registration, scheduling, appointments, and medical billing modules. Created stakeholder analysis matrices, BRD/FRD documents, AS-IS/TO-BE process models, user stories, acceptance criteria, Jira backlog items, and UAT test scenarios.

Clinical Trial Management System

Business Analysis Case Study

Analyzed clinical trial workflows and stakeholder requirements covering trial setup, patient enrollment, site activities, documentation tracking, and protocol compliance. Developed process models, requirements, user stories, acceptance criteria, and UAT validation scenarios.

AI Healthcare Revenue Cycle Management Platform

AI Product / Business Analysis Case Study

Analyzed healthcare RCM workflows and identified opportunities for AI-enabled automation to reduce administrative overhead. Formulated requirements and business rules for automated claim validation, intelligent document processing, denial management, and revenue analytics, backed by workflows, user stories, and acceptance criteria.

Healthcare Analytics Dashboard

Business Analysis / Product Case Study

Defined healthcare analytics and reporting requirements, establishing KPI definitions, dashboard requirements, user stories, acceptance criteria, and validation scenarios for data-driven operational decision-making.

EDUCATION

Master of Pharmacy (M.Pharm) – Pharmacology

March 2014 – July 2015

Lachoo Memorial College of Science & Technology, Rajasthan University of Health Sciences, Jaipur

Bachelor's Degree – Pharmacy

September 2010 – July 2013

Rajasthan University of Health Sciences, Jaipur

TECHNICAL TOOLS & TECHNOLOGIES

Project Management & Tracking: Jira, Confluence

API & Database Testing: Postman, SQL, MySQL

Data Visualization: Power BI, Excel

Diagramming & Prototyping: Figma, Whimsical, Draw.io
